TO DEDICATE GROVE PARK NEXT MONTH

Dedication of Lemon Grove's first county park and picnic grounds will take place Saturday, October 12, according to David W. Bird, the district's member on the county board of supervisors.

All that remains for the property to become officially county park property is for the deed to be filed, according to the county park department.

The park is on Washington between Mt. Vernon and Alton and was purchased by the county for approximately $25,000. Decision to purchase area for a park was the result of addition-income from county-increased sales tax last year. Supervisors at that time said they would attempt to spend the added income in the community of its origin. No estimate of Lemon Grove's sales tax productivity was given.

The park facility is presently on the county public work's drawing board under the supervision of the county park department. A Master Plan will be developed.

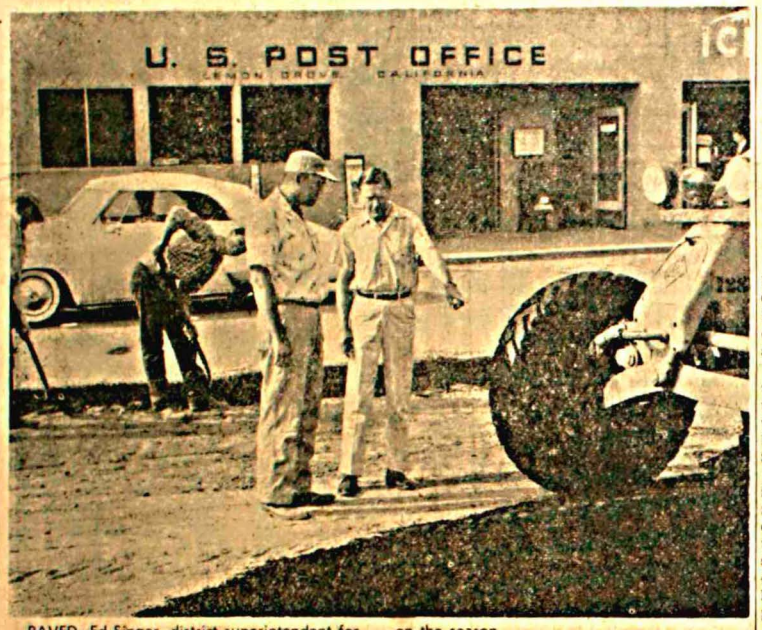
"Biff" Gardner, park department head said that as much of the plan as possible with the money available would be installed. Clearing and grading will get under way next week, Gardner said. Gardner also said that shade trees are important to park usability and suggested that local clubs or civic groups might get a 30 day jump on the project by planting shade trees around the edge of the park now.

Gardner said that some fire rings, benches and tables would be installed as soon as the grading was completed but water and toilets would have to wait until funds were forthcoming for these improvements.

The property was purchased from Mrs. Walter Denlinger via the Lemon Grove Swimming Pool Assocation for approxmately $7,000 an acre. The Association held an option with $500 on deposit for the purchase. The Association, made up of representatives of all Lemon Grove groups and clubs own approximately four acres adjacent the new park. A swimming pool will be built on this site when sufficient funds are available. Postmaster F. R. Faucher is chairman of the Association.

LEMON GROVE REVIEW

Vol. 10; No. 4 | LEMON GROVE, CALIFORNIA | THURSDAY, SEPTEMBER 12, 1957 | 10¢ Per Copy



PAVED—Ed Singer, district superintendent for the county road department points toward the paving job being done in front of the post office in Lemon Grove while Bill Chadwick, foreman, looks on.
The project was approximately 40 feet long and 20 feet wide, was finally accomplished 16 months after the post office was completed. The unpaved area contributed dust and rut hazards, and quagmires, depending on the season.
Job was taken on by the local road station as a matter of public convenience after complaints had been registered for more than a year, to the post master, the building owner, the district director of the post office in San Francisco, Congressman James Utt, the county board of supervisors, the county road superintendent and the county department of public works.

The Dinner VIEW

By MAX GOODWIN

I have three letters in my file from my friend Congressman Jim Utt and two letters (carbons) from Verne Scoggins, Division Chief of the United States Post Office Department who headquarters in San Francisco. These letters are in response to the fits I've been having about the miserable mess called the parking apron in front of the most public place of all Lemon Grove . . . the Lemon Grove Post Office.

I further have a record of a conversation with Supervisor Dave Bird and two with Joe Mack, County Road Superintendent. All sympathetic, but essentially the big fat buck was passed to the nearest pigeon.

So my spirits were not high as far as road matters are concerned when I joined Ed Singer for luncheon Thursday. Singer is division chief of the County Road Department and he runs Road Station No. 20 on Waite Drive in Lemon Grove. Singer maintains and improves county roads in the Lemon Grove area as instructed by Supervisor Bird; County Road Chief J. H. Mack, and Public Works Chief Jean Vincenz. They had not instructed Singer to pave the parking strip in front of the post office, as near as I could ascertain.

The situation became tenser when Singer demanded an extra olive for the sarsaparilla we had ordered and the barkeep responded with a disdainful frown. Later, after lunch, the waitress laid the check in front of Singer and he backed away from it like it covered a black widow spider. My attention was attracted elsewhere for an embarrassingly (for Singer) long time. I returned my attention to him after he picked up the odd change from a ten spot with which he paid the waitress for our luncheon and drinks.

"Ed," I said, "you are my friend

Home-Owners Ask Relocation Of Little League Diamond

A committee of residents of the 2200 and 2300 block on Washington Street petitioned the Swimming Pool Association Monday night to give them relief from noise created in and around the Little League baseball diamond.

The Association last year had granted temporary use of its grounds at Washington near Mt. Vernon to the Little League while money was being raised to install the swim facility.

The group, through its spokesman Stanley I. Vilcone, of 2360 Washington Street, presented a petition signed by 28 residents whom Vilcone said represented 100% of the property ownership in the ball park area.

Vilcone said that noise made it impossible for some of the residents to carry on a conversation at their dinner table. Additionally, youth-packs frequent the premises near midnight he charged.

He asked the Association to "relocate" the ball diamond and said that his group would assist in finding a new location.

Dr. Robert Burns presided at the meeting in the absence of F. R. Faucher who is vacationing. Dr. Burns said that the Association "acknowledged a problem exists" and a special meeting would be called of Association members to explore the charges of Washington Street residents.

Among the complaints listed in the petition were noise, hazard of being hit by balls, destruction of property, unsupervised playgrounds and inadequate parking. The petition also charges that power poles are being installed for a public address system.

Vilcone said that the protestants would encourage a swimming pool in the neighborhood. He also said no protest had been filed officially because it is understood that the Little League installation was temporary. Improvements however, are of a permanent nature, he charged.

Dr. Burns said that the Swimming Pool Association was, in effect, lessor of the property and the Association would decide on what action they would take, if any, at the next meeting.

Carmen Ursillo, 8051 Roy St., who was elected 1957-58 president of the Lemon Grove Little League in a meeting at junior high school at the exact time the Washington Street residents were registering their complaint, said Wednesday that he had not heard of dis-satisfaction prior to now. "I want to assure all concerned that we will approach this problem in the spirit of full co-operation," he said.

New Little League Officers Elected

New officers were elected by the Lemon Grove Little League Monday night, with Carmen Ursillo, 8051 Roy Street, emerging as the new president.

Ray Boggs was elected vice president, Isabelle McCrae treasurer, and Gladys Kregar secretary in a meeting held at the Lemon Grove Junior High School.

Marking the end of the first year of Little League baseball in Lemon Grove, William Allen, first president, presented pins to all boys graduating due to having attained the age of twelve. Pins were presented also to those players who were selected as all-stars.

A major part of the ceremonies was the presentation of a sportsmanship trophy donated by LG Sporting Goods Store. The honors went to the Tigers and their manager and coach, Bob Lochhead and Pete Luitjens.

Managers of the major league teams were presented with autographed baseballs.

As a final get-together for the year, an all-day picnic is scheduled at Action Ranch on Sunday, September 15, with the featured event of the day to be a baseball game between fathers and sons.

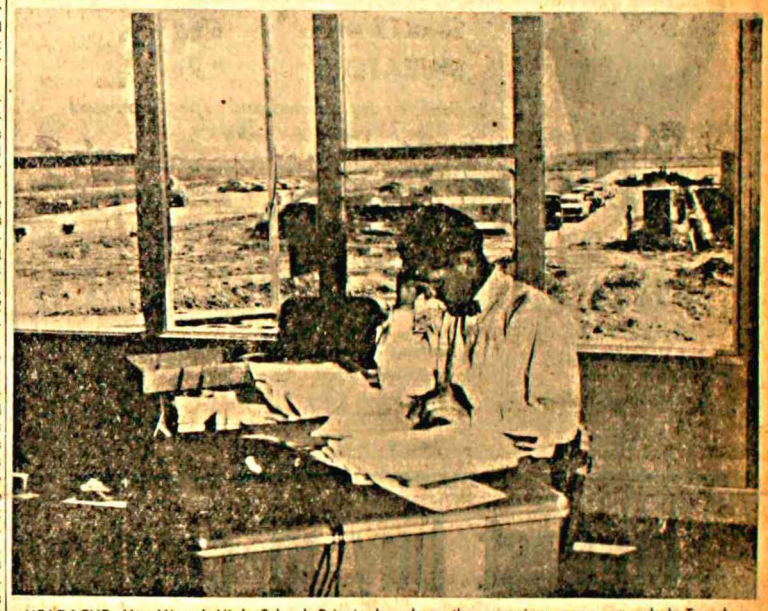
Half $ Million School Bond Election Called

A half-million dollar school bond election has been called for October 15 it was announced by Byron Netzley, superintendent of the Lemon Grove elementary school district.

On the ballot with the bond election will be a special authorization election in which the voters will be asked to grant the school board permission to also borrow $500,000 for school facilities.

Netzley said that should the issue be approved (a two-thirds majority is needed) it will not increase the local taxes. He said that laws passed at the last session of the legislature assure a 45c maximum for repayment of local bonds and state loan repayment.

According to Netzley, there are 3,500 children in local schools and 1,000 of these are on double session but this will be relieved when Palm Avenue school opens in December. Another crisis which will bring double sessions will occur within the next three years when 1,500 homes will be built within the school district boundaries. Because school enrollment of 4,300 is seen by 1960, approximately one million dollars will be needed to supply the facilities, Netzley said. These funds will come half from state aid and half from the up coming bond issue October 15. The district has presently $150,000 federal funds which is earmarked for the San Altos school. This school is scheduled to be completed and ready for occupancy September 1959. Another school site is being acquired from the Morse family on Palm Avenue and the first unit of an elementary school is scheduled for completion in 1959. The first section will accommodate 300 pupils. Netzley said that successful passage of the October bond issue would make the district eligible for state funds through the year 1960 without the need for additional authorization elections.



HEADACHE—Mt. Miguel High School Principal Mel Grant sits head in hand as school started Tuesday.. MT. MIGUEL OPENS WITH TEMPORARY FACILITIES

By H. A. THOMAS

Mount Miguel opened this week with only temporary emergency electricity in the administrative office. This was hooked to some electrical outlets for running of the office machines and powering the emergency fire alarm. A temporary period bell has also been installed on the roof of the administration building.

Enrollments are heavy; possibly necessitating an additional teacher. Heavy enrollments have been concentrated mostly in the freshman class.

A snack type lunch was provided by the A.S.B. in lieu of the regular cafeteria lunch. The cafeteria kitchen should be completed some time in November. When this unit is completed the regular school lunch program will be initiated. Students at the present time are able to buy sandwiches, milk, ice cream, a beverage, and other items such as potato chips, corn chips, etc.

The permanent telephone system has been partially installed at Mount Miguel High School. The school may now be contacted by calling HO 3-5551.

The opening of the Mt. Miguel School Tuesday can be summed up in two words, according to principal Mel Grant, "Organized Confusion."

Although the school (when complete) will be one of the finest in the country, still the faculty and the students are doing a bit of "pioneering." But all are taking things in their stride and from the smiles and chatter you'd think everything was running smooth as velvet.

To start off, there were more students registered than was anticipated. By Monday there were some some 1520 on the rolls and more signing up all the time. Principal Grant said it may be necessary to hire one or two more teachers.

Ditch digging on the campus is still going on. There is only one modern toilet in operation (flushed with a hose), but there are several portable toilets scattered around the grounds. The cafeteria kitchen will not be ready until November and all the excess water will have to run into temporary holding tanks if the sewer is not hooked up by then.

The cafeteria on opening day served two purposes, to sell food and as a study hall. The food served was merely snack lunches, sandwiches, ice cream, etc.

The student assemblies created a problem. At first there were no chairs and the students had to stand for nearly an hour, while they were welcomed and briefed on class activities. The chairs finally arrived shortly after the final assembly. The delay? One wrong order and one broken truck axle.

But amid all the "organized confusion" there was one bit of humor. The floor layers in the music room were accompanied with music . . . the soon-to-be-heard Mount Miguel band . . . no less.

2 Injured In Auto Crash On Broadway

A two car collision at the intersection of Broadway and Imperial Saturday injured two persons, one of them seriously. Classified as "serious" were the injuries of Charles J. Elliott, 145 S. 45th Street whose auto travelling east on Broadway struck broadside the southbound auto driven by Clyde Davis, a building contractor of 2818 Skyline Drive, Lemon Grove. Davis' wife Rosabelle suffered cuts about her face. Both injured persons were taken to Grossmont Hospital. Davis, and hiss daughter Cindy, 3, were not injured.

Both autos were severely damagd.

Water Tank Rises Near LG Quarry

Motorists on the east end of Broadway have been intrigued with a structure rising high and rapidly near the old quarry.

It's a new million gallon water tank being built for the Helix Irrigation District and will cost approximately $70,000. The new tank, combined with an existing 100,000 gallon tank, will serve 535 acres in that area and west as far as Massachusetts.

It is being built primarily to serve 313 acres which make up the Eastridge project. Homes are now being built on Eastridge. Cost of the tank is being recovered by the District via "inclusion" fees of $332 an acre.

A hydro-pneumatic tank will be added to serve the comparatively few homes at a higher elevation than the tank. Work will be completed in 90 days.

New Tank To Fail Water District Inspector Claims

Bert Wilkas, assistant chief engineer for the Helix Irrigation District said Tuesday that he doubted seriously that there was any danger of the new 4 million water tank on the hillside north of Lemon Grove "going out in 6 months to a year" as charged by Richard Silvey, a paid inspector for the District. Wilkas said he would recommend to the District that a metalurgist be hired to disprove Silvey's charges. The huge gray tank, fabricated by the Consolidated Western Steel Co., has developed some flat areas, some convex and some concave curves that "were not engineered nor inspected" into the job, Silvey said. "These are the first signs of failure," according to Silvey.

Silvey claims "backfilling" created a rigidity in the structure which does not allow for contraction and expansion induced by temperature changes. He said that metal fatigue would occur at the welded seams and the tank would "give way in six months to a year" Wilkas said backfilling

JOTTINGS FROM JOB'S

By CONNIE PERKINS

Although the summer was hot and humid it didn't stop the Job's Daughters of Bethel 229. Their meetings stopped in June and that's when the summer activities began. To start things off, they had a skating party at the Palisades Gardens skating rink in North Park. So on June 27, all the girls piled into buses and off they went for a night of excitement and fun.

Then to beat the heat they decided to have a beach party. On July 12 the girls and their dates left the Bethel at 4. They swam and played until time for the weiner roast.

To celebrate the birthday of the Bethel, July 24, they decided to have a Bunko Party at the Lemon Grove Youth Center.

To bring the families of the Bethel together a family picnic was held at Flinn Springs August 1. It was a pot-luck dinner.

La Jolla Playhouse was the next stop. They saw the play, "Career."

Then to finish the summer up, the girls all went miniature golfing at the Palomar Golf Course.

The girls and their dates will go on a hayride and swim at the Alpine Stables Friday. Box lunches will be taken and eaten on the picnic grounds.

A reception tea is going to be given in the honor of Mrs. Jacky Swift September 22, from two until four. She is the Grand Representative to the state of Nebraska. It will be held at the Woman's Club of Lemon Grove. Friends and public are invited.

Job's are having some money making activities also. One is a candy sale.

Another activity is a Car Wash on Oct. 5 and 6 at the Texaco Station at the corner of Cypress and Imperial. Tickets will be sold on earlier dates and also at the car wash. The inside will be cleaned as well as the outside. Tickets are $1 each.

Class To Start In Braille Typing

San Diegans, possessing sight, can bring light into the lives of San Diego's over 1,000 blind, by joining the free classes in Braille, which begin the evening of September 17, in the Blind Recreation Center.

The course of instructions is without charge and is open to both men and women. The class will meet once each week, instructions in the Braille alphabet and its contractions will be given, and students will learn how to transcribe writing they can see into the system of raised symbols which the blind can read with their fingers.

The field for transcribing is almost unlimited, according to officials of the Blind Recreation Center. "Graduates" of this new class will join the Braille Transcribers Guild where they are needed to help transcribe books for our blind children now attending Public Schools as well as filling any requests for the adult blind.

Anyone interested in joining this new class in Braille which starts September 17, 7:30 p. m. in the Blind Recreation Center, 1805 Upas Street, (off Park Blvd.) should phone JU 2-3987 or enroll at the opening class.

Bruington Installed Jaycee Treasurer

The Lemon Grove Junior Chamber of Commerce held a dinner meeting at Michael's recently at which time Hal Bruington, 210 Littleton Drive, was initiated into the office of treasurer by John Engelstad, president.

Fall program of activities was reviewed and Ronald C. Cardinale, 920 Campo Road, Spring Valley, was elected chairman of the "Doll Safety Program." The program is designed to emphasize safety to children of the local grammar schools.

Bill Vandusen, 9421 Crest Dr., Spring Valley, will be chairman of the "Voice of Democracy," the annual speech contest in which the local high school students are given an opportunity to compete for the national championship.

This meeting served in addition as kickoff for the fall membership drive. Keith Foster of 7318 Canton Drive, Lemon Grove, said that membership in the Junior Chamber of Commerce is the most logical and least expensive civic service opportunity available to a young man. In addition, membership offers him direct and tangible personal returns, he said.

True soft water is that of zero grains hardness. The average of that 85% of the United States which has naturally hard water is ten grains ("grains" means weight of the hardness elements per gallon of water).

GARDEN SECTION OF LGWC PLAN TUSEDAY MEETINGS

The Garden Section of the Lemon Grove Woman's Club held its first meeting of the year September 3, with 24 members and two guests present.

Plans were outlined for the program for the coming year. All club members are invited to attend the meetings which are held the first Tuesday of each month.

Delta Gammas To Meet At Dails

Wilkas said that a Notice of Completion had not yet been given and it would be several weeks before it would be. This is occasioned by work yet to be done, Wilkas said. Fencing, landscaping and some additional painting is yet to be done. Silvey said that he had advised the District to purchase four houses down hill from the tank as a precautionary step.

The District had given Silvey a termination notice approximately 30 days ago. His services end on September 13, Margaret Penry, District secretary said. Men's Club Hears Train, Bus Execs

The Lemon Grove Men's Club heard a potpourri of transportation programs Friday during which Donald Hansen, vice-president of the SD Rapid Transit system told that private capital could run transportation more efficiently than local government and not burden the taxpayer either. He said that more and more municipally-owned bus lines and appearing on city tax bills. He also said, nostalgically, that the last San Diego street car was hauled away this month as junk.

Carl Eichenlaub, superintendent of the San Diego and Arizonay Eastern Railway Co., told of the company's determination to co-operate with Lemon Grove. He said that the railway had the same civic outlook as the citizens who make up the community. He said the railway will change schedules to accommodate such civic enterprises as parades, and had ceased to blast the engine's horn except for emergencies. Numerous complaints had been made concerning the latter. The club gave a good round of applause to Eichenlaub, and his trainmaster, J. L. Green.

Lemon Grove School Superintendent Byron Netzley will be Friday's speaker and his subject will be the October bond issue. The following week Cecil Gunthorpe, mayor of Imperial Beach, has been booked. Previously scheduled he was ill and had to cancel his appearance. William Parker, Lemon Grove manager of the Telephone Company will preside.

A slip-up in the family communication system was responsible for the element of surprise, but hospitality was extended nevertheless. Jay was a jovial host as always but he went right on painting, finished the first bedroom and then the second! A good time was had by all even though the general effect was like a scene from "You Can't Take It With You."

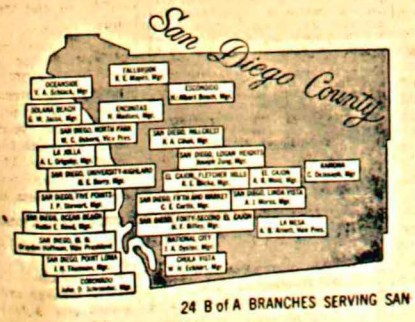
Miss Netta Profit



'Like thousands of other San Diego County merchants and business people, she nets a larger profit through sales to local Bank of America employes and stockholders. In this county last year, for example, our bank paid more than $4,600,000 in salaries and dividends—providing income that was used to purchase an unending variety of necessities and luxuries from local business concerns. This is another way San Diego County profits from Bank of America's kind of banking. We're statewide, sure... *but local, too!*

Local Girls Win National 4-H Awards

Spring Valley and Lemon Grove each havee a champion 4-H award winner, selected by the recognition committee, reports Robert W. McNulty, Farm Advisor.

Categories and winners were: dairy, county winner, Ann Mathewson, Spring Valley 4-H; and forestry, county winner, Patricia Knapp, Lemon Grove 4-H.

Ann Mathewson was one of four medalists to win the award in dairy section, while Patricia Knapp had no competition. Pat said she sent in some drawings of trees and green stuff.

Doris Lusardi, Rosemary Schmid, Bonnie Schilder, Patricia Knapp, Beatrice Emery, Anna May Myers and Stephen Luelf were selected to enter competition with 4-H members throughout California for State awards. Winners of State competition will be awarded an expense-paid trip to the National 4-H Club Congress to be held in Chicago the last week of November.

SEWER JOB LAGGING

Warren Barney, chief of the county engineering department, said last week, the sewage treatment plant of the Spring Valley Sanitation District will not be completed until November. He gave the reason as being the recent plumbers strike. The plant was scheduled for completion October 1.

Barney said some 1,000 homes and businesses can hook up for sewage service when the plant is completed. The sewer truck lines are almost complete, Barney said.

Feed Firm To Go Nursery

A long-time feed firm, Mason Feed and Garden Center, 8280 Broadway, is entering the nursery business, Chan Mason, firm proprietor said this week.

Mason said he had contracted to buy choice shrubs from one of California's largest wholesale nurseries. Beginning this week such shrubs as English laurel, crepe myrtle, Meyer lemon, cedrus deodara and all types of flowering shrubs will be stocked.

Also this week all kinds of seasonal bedding plants, a wide selection of tulip bulbs from Holland, and various colored camellias were stocked. In November fruit trees of all sorts will go on sale and in December, he said, roses will be featured.

Mason will continue to handle leading brands of national advertised feeds.

SUBSTANCE SPIRITUAL AFFIRMS SUNDAY SERMON

The Sunday Lesson-Sermon subject in all Christian Science churches is "Substance." The Golden Text is from Hosea (12:6), "Turn thou to God: keep mercy and judgment, and wait on thy God continually."

Through the ages spiritually minded men have discerned the substance, power, and majesty of God. David declares in a Bible passage, "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine; thine is the kingdom, O head above all. Both riches and honour come of thee, and thou reigneth over all; and in thine hand is power and might; and in thine hand is to make great, and Lord, and thou art exalted as to give strength unto all." (1st Chron. 29:11-12)

St. John's Parents Guild To Meet This Week

The first meeting of the Parent's Guild of St. John of the Cross School will meet Thursday, September 12 at 8 p.m. All parents of new students are cordially invited to attend and meet the faculty and members of the Parent's Guild.

Fuerte Closed For Bridging

Fuerte Drive has been closed by work of the Helix Irrigation District according to Jake Dekema, district engineer for the State Division of Highways who said that as soon as the water works finished their part of the project highway department work would keep it closed until the Fuerte Avenue bridge is built connecting the road to U. S. 80.

Work along 80 is progressing according to schedule, Dekema said. The three mile section between Grossmont Summit and Chase Avenue in El Cajon will provide full freeway standards with eight travel lanes with no intersections at grade when completed.

☆ In the 10-year period, 1946-1956, auto registration by the State Department of Motor Vehicles increased 104.8 percent, from 3,489,824 to 7,065,699.

else you would not have insisted on picking up the lunch tab. As a friend, will you do me a favor?"

"Name it," he said.

"Ed, will you pave that little strip in front of the post office?"

"Let's see," said Singer. "The post office is a public building and it renders a public service. Yep, I'll fix it!"

"When?"

"In bout a week."

"Name the day."

"Thursday."

"Morning or afternoon?"

"Nine o'clock Thursday morning," Singer said with finality.

In another part of this newspaper we have a picture of the miserable mess in front of the post office being paved. An that is how it came about. Earlier today I destroyed my file of communications from Congressman Utt, Postal Chief Verne Scoggins, Road Superintendent Mack and Works Chief Vincenz. I have instead put in a gold-plated file on Mr. Ed Singer because Singer agreed to do a job in one short lunch period that combined forces of the community couldn't get the wheels to do in 15 months . . . and Singer paid for my lunch besides.

All our victories are not this easy. We've had a running battle going with the local railroad people and I think I can honestly say that the San Diego Arizona and Eastern Railway, through the efforts mainly of Carl Eichenlaub, the RR's general manager, has become conscientious.

Carl, a credit to the rail line he represents, attended the Men's Club Friday, together with his trainmaster J. L. Green. Amid a spirit of good fellowship Eichenlaub and Green announced that the train's whistle-blasting had been ordered reduced to "an absolutely bare essential".

The San Diego A and E and it's personnel are to be commended for the consideration they have shown in the un-necessary whistle blowing department, even if it took three years of editorial browbeating to get it done.

Guy walked in the office recently and said the 4 million gallon water tank newly installed on Windsor Hills was going to give way and flood everything in its path.

Normally we don't get our steam up over such reports because we get odder ones almost every week. This one had some authority behind it because the guy who said is is the paid inspector on the job and works for the Helix Irrigation District. Guy's name is Richard Silvey who lives at 4434 Palm Avenue in La Mesa. Because Silvey had been the inspector for the District on the million gallon East Rim tank; the 3 million gallon Greenfield tank, and the 3 million gallon Tunnel Hill tank, all of which he passed with a resounding OK, it seemed strange that he would visit this newspaper's office and register a warning that had the impact of a junior size atomic bomb.

Silvey claimed that district engineers would not heed his warning. The tank had been built to specifications, he admits, but backfilling had created a rigidity which was causing the tank to tear itself apart. We visited the tank and he showed me what he claimed were flats, concaves and convexes not engineered into the metal plates of which the tank is made. He said District engineers had kissed him off when he complained. He claims the top course of metal plates (there are four courses) are one and five eighths inches askew. He said this does not mean the tank will topple . . . only that it will tear itself to pieces as a result of the contraction and expansion of the tank.

We talked to the District's engineers, to this district's board member and to the secretary of the district's board. All have assured be that the tank is safe and it is unlikely that the tank will "go" as Silvey says.

They are exercising good judgemen enough, however, to acquire the services of a firm of expert metallurgists. They are checking out Silvey's charges . . . charges in a field they were paying him to report as an expert. If Silvey's charges are substantiated he should be decorated for meeting the District head-on in a matter the engineers should have investigated before now. If he is wrong he should be excoriated as a trouble-monger.

NEW LIBRARY—County officials stand on the site of the new Lemon Grove Library which will soon be built on Central opposite the Lemon Grove Fire Department.
Property was deeded to the county several years ago by Lemon Grove pioneers, Sonka Brothers. Building has been started through the architect's office of the county engineer. Date for completion, nor cost of the building has been nailed down yet.
In the photo are Miss Frances Hahn, county librarian; Warren Barney, chief engineer of the county public works department, and Harvey Smith, an architect with the engineers.
One of the obstacles to be overcome, says Miss Hahn, is steps. "Many elderly people will be using the library and we found use of such facilities is in adverse ratio to the number of steps the patron has to climb. I want no steps on the Lemon Grove library," she said. —Tappy Foto.

Two Fires Cause Little Loss

Two fires with a minimum of damage attracted maximum attention in Lemon Grove this week.

A brush fire on the point of Murray Hill overlooking Massachusetts resulted in nine pieces of fire equipment responding. Persons reporting the fire could not determine whether the blaze was a Forestry, La Mesa, or Lemon Grove fire department responsibility. All responded. Two boys were found in the area smoking and playing with matches. They were remanded to their parents.

Tuesday, a rickety chicken coop at 3757 Olive Street burned. Firemen said the coop has no value but $15 damage was done to an ajacent fence post.

Firemen said four fires resulting from illegal burning were extinguished in the last two weeks. A plea was made for use of incinerators, description of which may be obtained from any fireman.

MD PICTURES AVAILABLE FOR CLUBS

San Diego County's clubwomen have been asked to help spread the word about muscular dystrophy, a mysterious disease which has doomed 200,000 Americans by turning muscle into fat that paralyzes its victims, according to John Starkey, president of the local M D association.

In a letter to the women, Starkey said: "Most of the victims are children, doomed to certain death unless our teams of researchers can find the solution to this tragic enigma."

Starkey suggested that club members especially those who have children, schedule a new film, "The Other Half of the Team," at a future meeting. Narrated by Ronald Coleman, the color picture shows how one typical community is meeting the problem of M D. It can be booked by calling the local M D office, CYpress 8-3322, Starkey said.

☆ Fees collected last year by the State Department of Motor Vehicles, for auto registrations and drivers licenses, totaled $208,696,665.

Hospital Secretary Gets $350 Fine

Former Grossmont Hospital secretary Jane Dudas, 20, of 5131 69th St., San Diego, was fined $350 and placed on probation in El Cajon Municipal Court September 3, following her plea of guilty to charges of petty theft.

The former secretary to Mrs. Maurice Kelly, director of nurses, admitted stealing a patient's watch June 13 and a $5 bill from a purse planted in the director's office July 18 by Pinkerton detectives. La Mesa police made the arrest at the young woman's home.

Thee fine was a condition of three year's probation. A six-month jail sentence was suspended.

BWL To Present 'Plaza Princess'

By SADIE MARDER

The Lemon Grove Business Women's League will again sponsor a "money" doll, it was announced last week by the group's president Julia Farle.

The doll this year will again be decorated with money—the banknotes totalling $100. This year she will be a Madam Alexander creation 20 inches tall, and named the Plaza Princess. The doll's dress will be fashioned after that of a godmother. Evelyn Lauritzen, Evelyn Shelly and Helen Baxter have volunteered to tailor the doll's clothes. Mrs. Baxter will substitute on the job for Jule Carmody who had an operation recently.

Forrest Baxter of the LG Sheet Metal Works will build the case for the doll. Proceeds from this event, as before, will go to beautify the plaza. Contributions will soon be accepted for this project.

A fashion show will be the feature of the November meeting with Lowe's Toggery and Patricia's Sportswear furnishing the fashions. Mary Welchel of the Mary Monroe Shop will be commentator.

The League has undertaken a project of aiding the family of Svea Yeager, a young lady who graduated with honor from Helix recently although she is confined to a wheel chair. The BWL had committed itself to supplying mimeograph work for Svea's mother, Mrs. Alice Yeager, 2001 Noble, Monterey Heights, so that she could stay home with the sixteen-year old girl.

PARADE TO BE KID'S DAY FEATURE

Lemon Grove Kiwanis Club will sponsor a Kid's Day September 28 which comes on Saturday which will feature a parade, with floats and kids in costume; a chariot race and a bicycle race.

Every youngster will dib in all the ice cream and candy he wants.

The parade will start at 1 p.m. on the parking lot in front of the fire station and will be made up of costumed marchers, floats, decorated bicycles and chariots. No horses will be allowed.

The parade will march down School Lane, turn west on Golden right on Imperial, east on Broadway to Kempf to the junior high school play grounds gate and into the play yard.

Judging will take place there. Kiwanis Club members have come up with 24 trophies and 50 ribbons so that it is evident that few contestants will want for prizes.

Child care will be provided.

Rules and regulations are available from principal at each school.

Dr. Robert Burns is in charge of the Kids Day event.
